

COMMUNITY SUPPORT PROGRAM OF THE ALS SOCIETY OF QUEBEC

DESCRIPTION OF SHORT-TERM ASSISTANCE PROGRAM

We offer a short-term **last-resort** assistance service, that is subject to the availability of funds. Financial aid requests are reserved for financially and socially vulnerable families who demonstrate urgent illness-related needs that cannot be addressed by: existing health and social service networks/programs; regional community organizations/resources; insurance coverage or government programs. These are families who do not have access to the equipment and services needed to care of their illness without negatively impacting upon their basic needs. This Community Support Program includes assistance and guidance in finding resources that can support families with various needs over the course of their journey with ALS.

Prerequisites:

- Be a member of the ALS Society of Quebec (free of charge)
- Have expenses or extraordinary circumstances of vulnerability related to the illness

ELIGIBILITY REQUIREMENTS

All requests for assistance must have previously been submitted to the relevant government programs, insurance providers or community organizations that can offer the service/financial aid:

- Insurance coverage (personal, family, group or public (Social Assistance and Social Solidarity)).
- RAMQ and MSSS (CLSC, CISSS, CIUSSS): Public Prescription Drug Insurance Plans and Exceptional Medication Programs; Technical Aid and Assistive Device Programs; Residential Adaptation Assistance Programs (PAD); Accommodation and Domestic Help Programs (including Meals on Wheels); Help with aids of daily living and domestic tasks (AVD/AVQ); Communication aids and environmental control technology programs (PMATCOM); Ministerial Enteral Nutrition Program; National Program for Home Ventilatory Assistance (NPHVA); etc.
- Local, municipal, and regional volunteer and community resources and organizations.

This support program provides last resort, short-term assistance. Given that the ALS Society of Quebec is a non-profit community organization, our role is to help with delays and shortcomings within the health care system, not to replace or substitute any government programs. This support program is made possible through donations and grants, and varies according to the funds available.

PROCEDURES

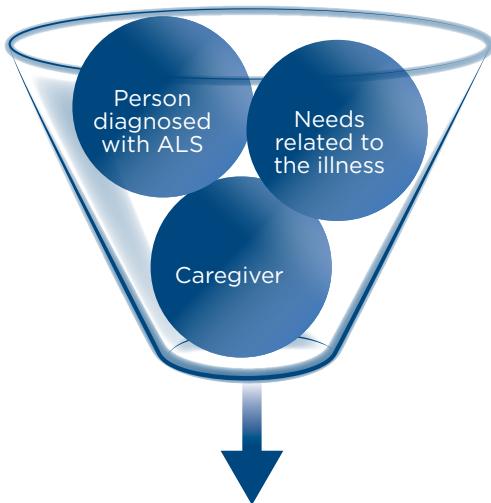

- ✓ The request for financial aid must be made by a health care professional from the local community services centre (CLSC), Integrated Health and Social Services (University) Network (CISSS or CIUSSS) or from a long-term care centre/facility or a palliative care unit/residence.
- ✓ The request must be accompanied by two quotes/cost estimates.
- ✓ Please take note that there may be a maximum allowable amount allocated for certain products and services.
- ✓ A request for assistance form must be completed for each item or type of assistance requested. We will send a confirmation of receipt to confirm that we have received your request.

Please note that we will not reimburse any purchases, rentals of equipment, or costs/fees related to services that are made prior to a request being sent, received and processed by the ALS Society of Quebec. Please contact us before undertaking any expenses or purchases. We are here to help you.

For more information or to discuss a request, please contact:
